

WEBG

1580 AM

EBENSBURG, PA

William A. Burrows
709 Division Street
Gloucester City, NJ 08030

- 28 APR 87 -

WEBG RADIO
Box 1580
Ebensburg, PA 15931

Dear Mr. Burrows:

This is to verify Your reception of WEBG Radio as You noted in Your letter dated 08 APR 87. The logging of Our Sign-Off at 5:18 PM .. 18 JAN 87, was accurate.

I don't really know what "Party Ann." means, unless We said something about a party someone was having. The Sign-Off You logged was pre-recorded.

I enclosed a copy of an Air Check that I thought You might like. Our format is Solid Gold.

Our general coverage area reaches 15 miles from Ebensburg with a secondary reach of 20 miles. Prime coverage for a 1000 Watt A.M. station at 1580 kc, is about 10 miles.

The transmitter is 1/4 of a mile from Ebensburg. The studio is in Ebensburg.

We have not received vary many DX letters in the two years I have been here.

Happy DXing,

Lee Hollihan
Lee (Mr. Record) Hollihan

GM: Phil Lenz

SPECS:

1000 WATTS Daytime.

3.7 - 5 WATTS Night, New Treaty. (Have done some testing).

1580 kc, Canadian Clear, Class II.

1/4 wave, top loaded, omni, antenna.

Interfereing Stations during C.H., Ebensburg service area:

WPGC Morningside Maryland WVKO Columbus Ohio WTYO Hammonton NJ

We never hear from CBJ until at least an hour after Sign-Off. They very seldom bother Us at Sign-On.
